

Steady Paws MD with Mr. Giunta (4th - 5th Grade)

In this 11-week course students will get their hands dirty with biomedical sciences. We'll study how infection spreads through a population, create 3D printed models, code a game to study concussion response times, and of course, make fake blood. Does your student have a steady enough hand to get the job done?

Classes will be every Monday afternoon from 2:30-3:30 between August 13th and November 12th, with no class on 9/3, 9/24 or 10/15. Grades 4th and 5th only.

Class size is limited to the first 20 students to enroll. Minimum class size is 10. Cost is \$200 per student. Payment should be made by check to Blue Jay Education LLC.

Please enroll my child in Steady Paws MD! I understand that pickup time is 3:30 PM, and that my child will be sent to ASP if not picked up within 10 minutes of that.

Please be sure to park and walk over to the door. Unless otherwise indicated in writing, after class my child will go to: _____ carpool _____ ASP _____ other
